 Floor - 3/16 inch smooth steel plate  
 Sides - 10 gauge smooth steel plate  
 Floor channel beams - 12 inch centers

The **KB-20 Series** has been designed for easy operator access, easy service, easy maintenance and with the low initial cost, it makes this loader a great **ECONOMICAL** package.

A **USER-FRIENDLY KB-20 Series** truck body makes loading and unloading heavy, bulky materials easier. Two heavy-duty doors swing completely open for easy discharge. Also available is an optional scow (open back) type body.

**QUALITY** - The **KB-20 Series** boom hoses are protected from debris with no hoses exposed below the rotator. The boom is equipped with a continuous rotating grapple. The grapple is constructed with bolt-on heat-treated steel cutting edges. The edges are overlapping allowing the grapple to close completely. This is a distinct feature that puts this grapple in a **CLASS OF ITS OWN**.

**SAFETY** features include hydraulic hoses enclosed in a pedestal structure. For superior safety, the **KB-20 Series** features a pilot operated check valve, an integral part of each boom and outrigger cylinders. Shown with optional pilot operated electronic joystick controls.

**DURABILITY** - The **KB-20 Series** truck body is equipped with twin telescopic dump cylinders, providing a 45-degree body tilt. The **KB-20 Series** offers a structurally sound, heavy-duty body that will stand the test of time.
