Waste and Materials Management. Redefined.

# STATIONARY CONTAINERS

There's no other stationary container for waste, recycling, and organics that's built to last quite like a Toter. They're manufactured with a patented stress-free Advanced Rotational Molding™ process for superior product durability and years and years of service life. Toter containers are extremely flexible and impact-resistant, and easily handle the day-to-day abuse of waste collection. With patented Rugged Rim® technology and added materials in critical-wear areas, Toter containers are extremely tough in the areas that take the most abuse. They'll stand up to just about anything that's tossed in them – or at them.

Toter containers are available in multiple types, sizes, and colors, with optional features for specific waste and recycling needs in industrial, commercial, and institutional environments.

# SLIMLINE CONTAINERS

Toter's Slimline containers provide effective, sustainable waste collection for commercial and institutional environments. They are extremely rugged and built to last, and they're available in a wide range of colors to complement any contemporary environment.

## FEATURES

- Manufactured with patented stress-free Advanced Rotational Molding™ process that provides superior product durability for years and years of service.
- Patented Rugged Rim® technology and added materials in critical-wear areas provide toughness in the areas that take the most abuse.
- Flexible and impact-resistant to easily handle day-to-day abuse.
- Available in a wide variety of beautiful, upscale granite colors that mask normal wear by helping hide scuffs, scratches, and unsightly dirt, keeping the containers looking new for years and years.
- Custom colors and graphics available.
- No-show bag holder straps hide unsightly can liners.
- Available in square, rectangular, and half-round shapes.
- Available with multiple lid styles.
- Available in 21-, 23-, 25-, and 50-gallon capacities.
- 2-year no-hassle warranty.

# ATLAS CONTAINERS

Toter's Atlas commercial-grade, large-capacity containers are built to last. Only Toter offers patented Rugged Rim® construction for added strength in critical-wear areas, and with a revolutionary Advanced Rotational Molding™ manufacturing process, Atlas waste containers will stand up in the toughest environments imaginable.

## FEATURES:

- Advanced Rotational Molding manufacturing provides extreme durability, superior impact-resistance, and long life.
- Patented Rugged Rim construction – exclusively from Toter.
- Single-piece design, with non-slip handles molded into the container, so they won't rip or tear off during use.
- Heavy-duty construction protects against wear.
- Factory-installed “dolly adapter” works with all universal caster dollies.
- Snap-tight lid for snug fit.
- Fluted inner walls for easy removal of plastic liners.
- Perfect for indoor and outdoor use.
- Can be used for a variety of applications including trash, recycling, yard waste and animal feed.
- Available in 32- and 44-gallon capacities.
- 2-year no-hassle warranty.
- Made in the USA.

# SUSTAINABILITY

Toter's commitment to environmentally responsible manufacturing is evident with every product we make. Toter containers not only outperform and outlive every other cart on the planet, but they contribute to sustainability initiatives in many positive ways:

## 1) RECYCLED CONTENT

Eco-friendly Toter containers are manufactured with up to 50% recycled content, with steel components containing 80% to 100% recycled steel.

## 2) RECYCLABLE

Toter containers are made of BPA-free polyethylene and are 100% recyclable. In fact, Toter recycles used containers into new containers every single day!
